

# Plasmaxx customized LCD display systems

## exfactory

**Endless possibilities: multiple screen sizes, content on demand, rotating displays**

Whatever you want from your LCD displays, Plasmaxx makes it happen. With Plasmaxx factory-customized, integrated solutions, you can create attention-grabbing video displays in shopping malls, corporate lobbies, museums, trade shows—anywhere.

**Electronic and computer controls** Embedded pc technology and software enable functions such as content on demand. Upload video, text and graphics effortlessly via USB stick, DVD or WLAN. With network connections, control any display remotely.

**Rotation** The display can rotate while the image remains in position—program it to spin in either direction and at various speeds. Plasmaxx is the only manufacturer which makes this eye-catching option readily available.

Plasmaxx provides factory-customized LCD systems, integrated content upload solutions and ongoing support—exactly what you need to create impact at any point of purchase or point of information display.
